

Program Overview

Funded by the Ontario Government Ministry for Seniors and Accessibility, March of Dimes Canada's Home and Vehicle Modification Program provides funding for basic home and / or vehicle modifications. By reducing or eliminating physical barriers which create life safety risks, modifications, adaptations, and devices enable children and adults with mobility restrictions to continue living in their homes, avoid job loss, and participate in their communities.

The HVMP provides funding for basic and essential solutions directly addressing physical barriers within a home explicitly related to an applicant's disability and current mobility restrictions. Any items prescribed and or quoted not directly related to accessibility and removal of barriers will not be funded by the program and will be the applicant's responsibility.

There is no guarantee of funding upon application to HVMP. Funding will depend on the dollars available, and eligibility of the request and applications will be prioritized based on the assessed needs of the applicant.

The Program **will not approve reimbursement** of any cost for adaptations and/or devices prior to authorization from the program.
