

Getting Quotations for your Vehicle Modifications

If you are purchasing a new vehicle to modify or a used vehicle that has been modified, you must be working with a qualified vehicle dealership and modifier. A useful resource for locating qualified vehicle modifiers and contractors is NMEDA: The National Mobility Equipment Dealers Association. The NMEDA web site allows you to search for NMEDA-associated dealers in your area. Check them out at :

www.nmeda.com

Quotations Must Include:

- All equipment and labour charges (Itemized costs with price totals and taxes listed)
- A detailed description of the work to be completed

Timelines:

Ask your contractor(s) how long it will take to modify your vehicle. Some vehicle modifications such as lowered floor conversions can take up to 8 weeks. You should plan how you will get to appointments while your vehicle is in the shop.

Other Things to Consider:

- Will your current vehicle support the modifications you require, or will you need to purchase a vehicle that will allow for your requested modifications?
- Your quotations need to identify the vehicle you plan to modify.
- The Home and Vehicle Modification Program funds basic access needs. You must negotiate any upgrades directly with your contractor(s), at your own expense.
